The ISI® Grant Program:

it helps small libraries perform like big ones

If you rely on a departmental library or other small library for most of your literature searching, you know that 'small' usually means 'not enough funding for major reference works.' You also know that not having the tools for comprehensive searching creates problems for both researcher and librarian.

The Institute for Scientific Information® has the solution to your problems: ISI grants toward the purchase of these major reference indexes —

Science Citation Index®
Social Sciences Citation Index™
Arts & Humanities Citation Index™

ISI grants are awarded to libraries qualifying under any of a wide variety of categories. For example, if your library fits into one of the following classifications, it may be eligible for grant assistance:

- ☐ Two-Year Colleges — Four-Year College or University Libraries with no or limited graduate programs.
- ☐ Municipal, State or Public Libraries.
- ☐ Departmental Libraries.
- ☐ Hospital Libraries.
- ☐ Schools and Colleges of Veterinary Science, Pharmacy, Dentistry, Nursing, Osteopathy, Chiropractic, Podiatry, and Mining.
- ☐ Small Non-Academic Research Organizations.
- ☐ Polytechnics and Colleges of Education.
- ☐ Libraries in Developing Nations.

Complete listings of categories are given on grant application forms available from ISI. You can determine your eligibility without obligation; request an application form for the reference in which you are interested by writing to ISI, Grant Administrator, at the address below.
